Live d'ife amidst care and nature

Arise each morning fresh as a lark. Go; get busy with your daily routine...return to your abode to bask in comfort of pristine nature. It is all the happiness a wonderful home can have in store. In the vicinity of your beautiful habitat there is plenty more. Come; let ripples of joy stir up your new home. Efficiency in design, preferred location and the optimal use of space are the key features of this residence. A uniquely designed eco-friendly project which combines imagination with concrete with huge doses of verdant landscape and other environment-friendly features thrown in.

eco friendly homes

At Eternity Ecstasy, the outdoors are manicured to inspire 'green' living. There are ample trees, shrubs and rain water harvesting cum saving system which runs to a capacity of 1 lac liter. The soil erosion control measures, extensive landscaping etc make this project a sustainable abode for numerous species of flora and fauna. In fact the verdant green makes the immediate eco system pure and pollution free.

Some of the well preserved amenities which will ensure that you have a 'green thumb' are

- 1. Rainwater harvesting
- 2. Solar powered lights
- 3. Large open spaces with landscaped gardens
- 4. Underground and overhead storage tanks for water and rain water
- 5. Waste water recycling
- 6. Solar hot water (Top floor flats only)
- 7. Scientific, environment friendly methods for garbage selection and collection
- 8. Eco friendly material for construction.

Apart from all this, we have also used low VOC Paints and adequate light and ventilation, just to make sure that eco-friendliness goes beyond lush green landscapes.
